

BEYOND THE BIKE & BUS

Alternative commuting options that
are sustainable and accessible for
residents of Northern Ontario.

This project is made possible through a partnership with the
City of Greater Sudbury through the Transportation Demand
Management Community Grant Program.

TELECOMMUTE

Working from home just one day per week saves travel time, fuel costs, and an average of 5.02 KG of CO₂ per week!

This project is made possible through a partnership with the City of Greater Sudbury through the Transportation Demand Management Community Grant Program.

CARPOOL

Connect with someone that lives or works nearby and share your commute. You'll have someone to chat with, and save an average of 2.51 KG of CO₂ per ride!

This project is made possible through a partnership with the City of Greater Sudbury through the Transportation Demand Management Community Grant Program.

rethink
green

CONDENSE SCHEDULES

Extending each workday could mean one less day per week in the office. That would save an average of 60.24 KG of CO₂ annually!

This project is made possible through a partnership with the City of Greater Sudbury through the Transportation Demand Management Community Grant Program.

VIRTUAL HOSTING

Hosting a meeting or conference?
Using technology to bring in a Toronto
guest virtually could save 200.82 KG of
CO₂ each time!

This project is made possible through a partnership with the
City of Greater Sudbury through the Transportation Demand
Management Community Grant Program.

PLAN ERRANDS

Plan errands in advance to maximize your workweek. Eliminating weekend errands could save an average of 10.04 KG of CO₂ per week.

This project is made possible through a partnership with the City of Greater Sudbury through the Transportation Demand Management Community Grant Program.
