
Job Title: Climate Innovation Manager

Start Date: July 17, 2023

Location: Sudbury, Ontario

Salary Range: \$45,500 - \$48,000

JOB SUMMARY

Are you passionate about the green economy? Do you have excellent interpersonal skills but also a solid understanding of sustainable infrastructure and technology?

Join reThink Green as the Green Economy North Climate Innovation Manager.

Green Economy North is a membership-based sustainable business program of reThink Green, and the Northern Ontario hub of Green Economy Canada.

The Climate Innovation Manager will help guide Green Economy North members through the proven milestone process to measure greenhouse gas emissions, set reduction targets, and make positive change.

JOB DUTIES

The Green Economy North Climate Innovation Manager will be responsible for:

- Developing lasting relationships with current and future Green Economy North members.
- Acting as a sustainability coach and principal resource person for Green Economy North members.
- Coordinating the collection of emissions data from members, assisting with energy efficiency walk-throughs, and producing highly professional, technical reports that include findings and recommendations.
- Making connections with local service providers in the renewable and sustainable technology field.
- Assisting with the coordination of local events and initiatives that help promote the program.
- Tracking participant data and reporting to reThink Green's CEO, as required.
- Visiting workplaces to present material, engage and train staff, and provide value-added support on associated program software and systems.
- Assisting with the drafting and sharing of branded materials.
- Developing an understanding of local business needs and offering practical solutions.
- Other duties as requested, and/or required for effective program delivery.

REQUIREMENTS

- Knowledge of climate science, greenhouse gas accounting, the low-carbon economy, and local environmental issues is a mandatory requirement.

The ideal candidate will:

- Possess a degree or diploma in environmental science, science communication, sustainability, low carbon technologies, business, resource management, or a relevant combination of training and experience.
- Have strong project management and leadership skills.
- A solid understanding of the regional business community.
- Must be proficient with technology and common software systems, including but not limited to, Microsoft Office Suite, emails, and the Internet.
- Experience working in and knowledge of Northern Ontario is strongly preferred.
- The ability to work in more than one language is an asset.

HOW TO APPLY

Please send across your cover letter and resume to info@rethinkgreen.ca.

Interviews will begin July 4, 2023, and will continue until the position has been filled.

While we thank all applicants, only those invited for an interview will be contacted.
